CoRC

**Culture of Responsible Choices (CoRC)
Quickie
for the Services Squadron Commander or Director**

Developing a Culture of Responsible Choices is a worthy AF goal that was developed out of FEW's successful 0-0-1-3 campaign. This culture shift is necessary if we are to stem the unfortunate consequences of poor choices related to drugs and alcohol consumption. A key part to this goal is to provide healthy alternatives or "CoRC Events" at your installation. While many functions will share this responsibility at your installation, your Services organization will have a major part.

CoRC event should be characterized as events or elements within an event that promote healthy life styles and responsible choices. Most Fitness Center and Family events are examples that would fall in this category.

If you have questions, please contact HAF/A1S through either CMSgt Owen Davies at DSN 664-4929 or Mrs. Jan Baltrusaitis at DSN 664-4927.
